

REMOTLY

BRAND GUIDELINES

The wordmark

REMOTLY

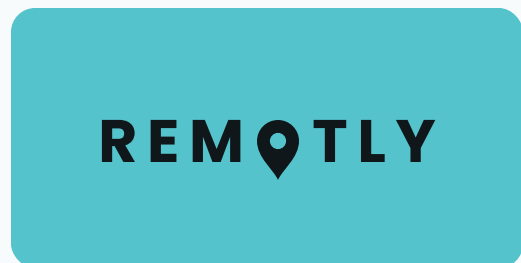

CLEAR SPACE = CAP HEIGHT OF "R" ON ALL SIDES

The map pin replaces the letter O —
the brand promise lives inside the name:
wherever you work, you are placed somewhere.

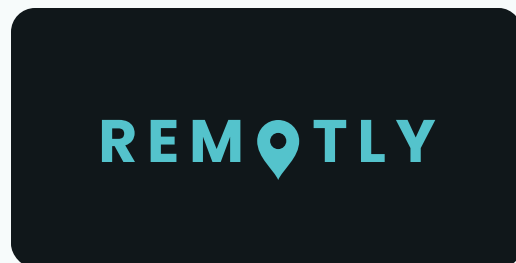

Always reproduce the wordmark as a single unit.
Never typeset it manually or swap the pin glyph.

MINIMUM WIDTH · PRINT 28 MM · SCREEN 110 PX

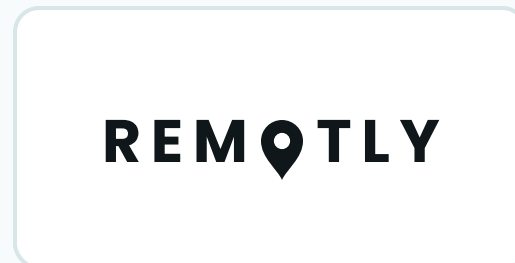

Colorways & misuse

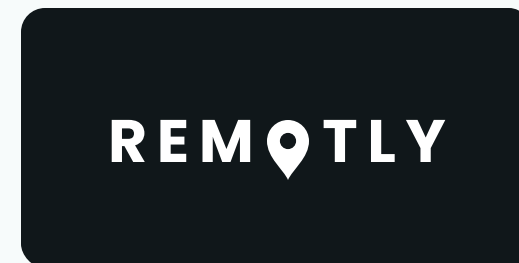

INK ON TEAL · PRIMARY

TEAL ON INK

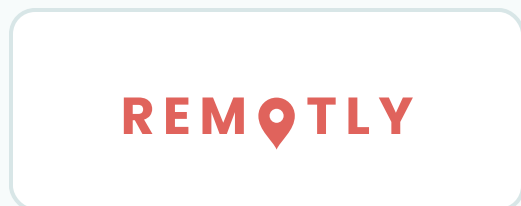

INK ON WHITE

WHITE ON INK

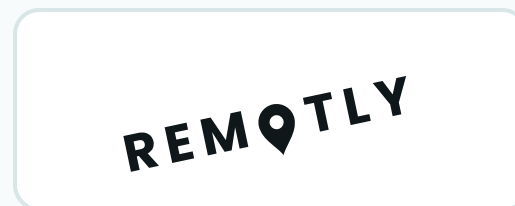

Don't

DO NOT RECOLOR

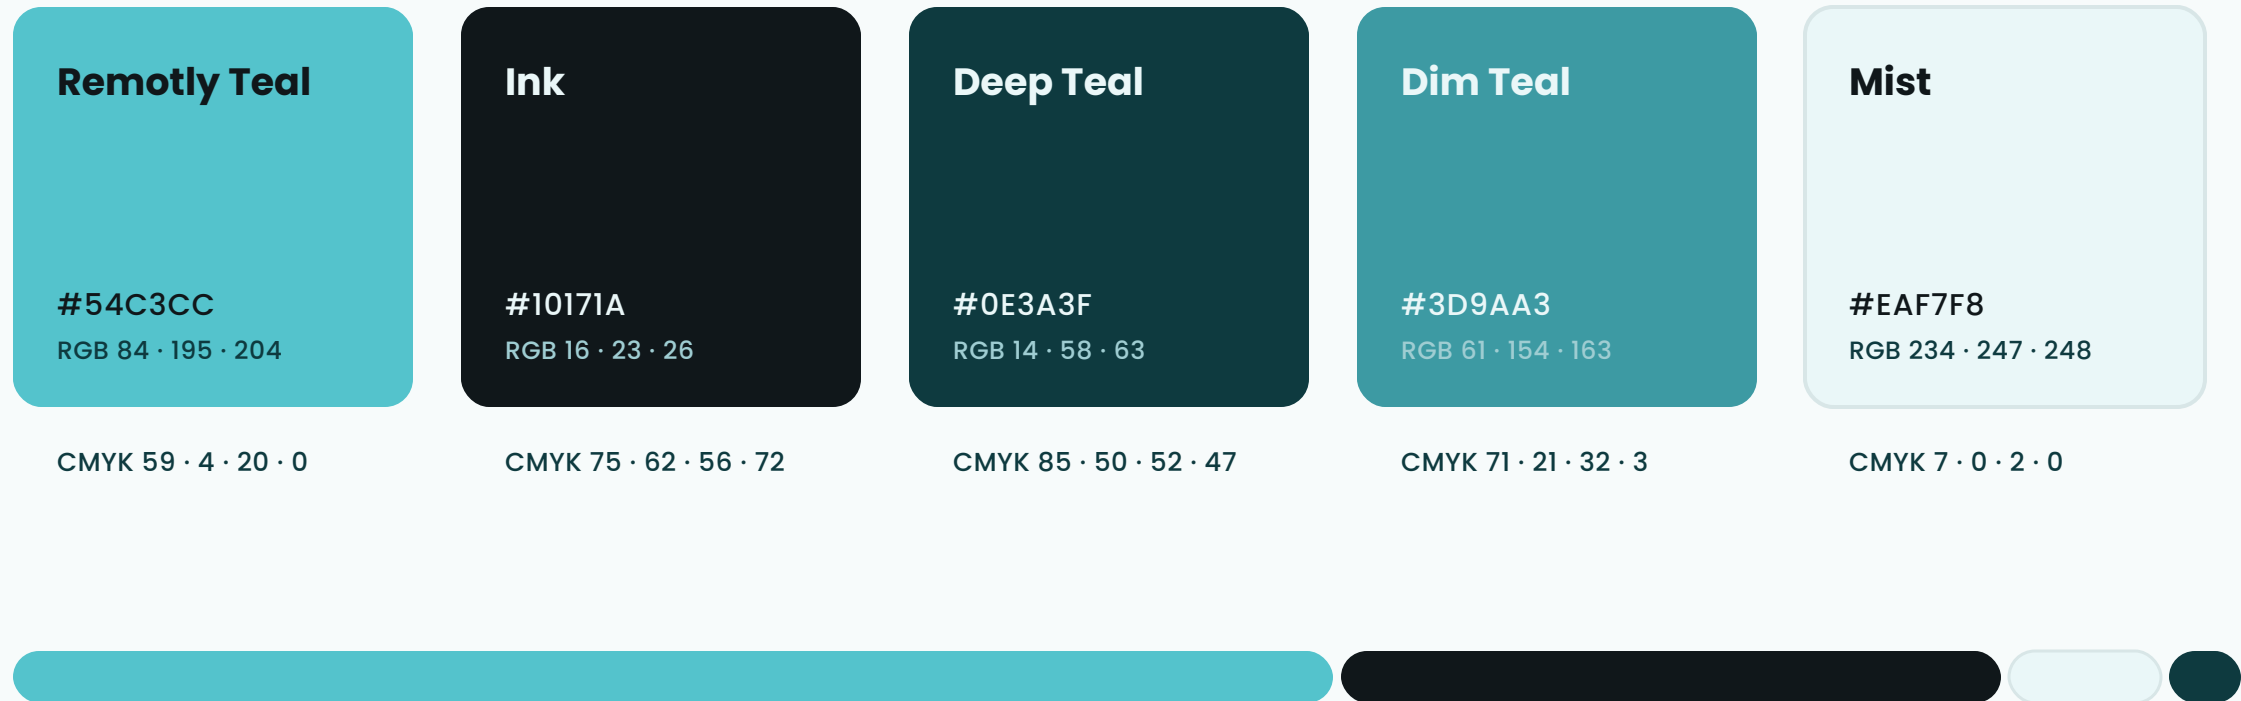

DO NOT STRETCH OR CONDENSE

DO NOT ROTATE OR TILT

Palette

USAGE ≈ 55% TEAL · 28% INK · 12% MIST · 5% DEEP

CMYK values are approximate conversions for coated stock — verify with a proof before large print runs.

Poppins, everywhere

AaBbCcDdEeFfGg

0123456789 +@.

Poppins Bold

Names, headlines, the wordmark, URLs

Poppins Medium

Letterspaced labels — roles, captions, taglines

Poppins Regular

Contact lines and body copy

Poppins Light

Large quiet statements only — never below 18 pt

LABELS ARE ALWAYS UPPERCASE WITH 25–35% LETTERSPACING

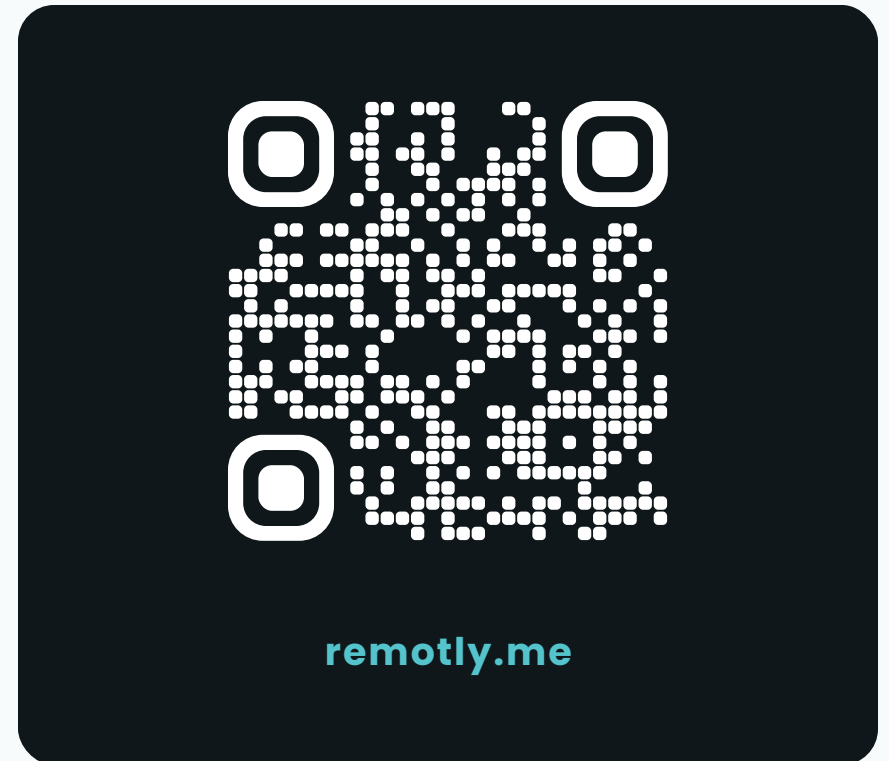

Tagline & QR treatment

Work remotely. Live locally.

WORK REMOTELY

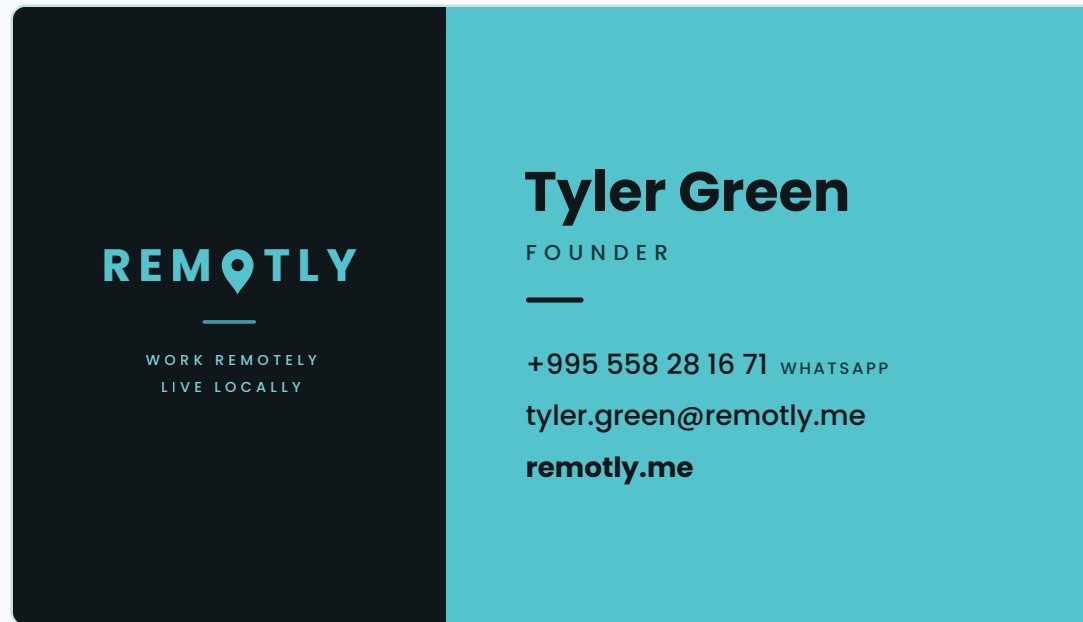

LIVE LOCALLY

Two forms only: sentence case in Light, or the stacked uppercase label pair. Never bold, never italic.

WHITE ROUNDED MODULES ON INK · NO TILES OR FRAMES

Business card

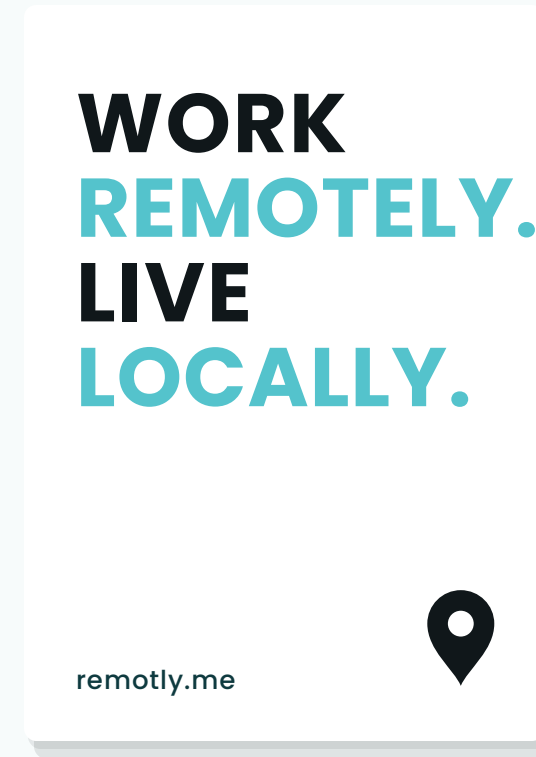

FRONT

BACK

Print: 3.5 × 2 in, 300 dpi minimum, matte laminate recommended on the ink panel.

Poster system

**One message
per poster.**

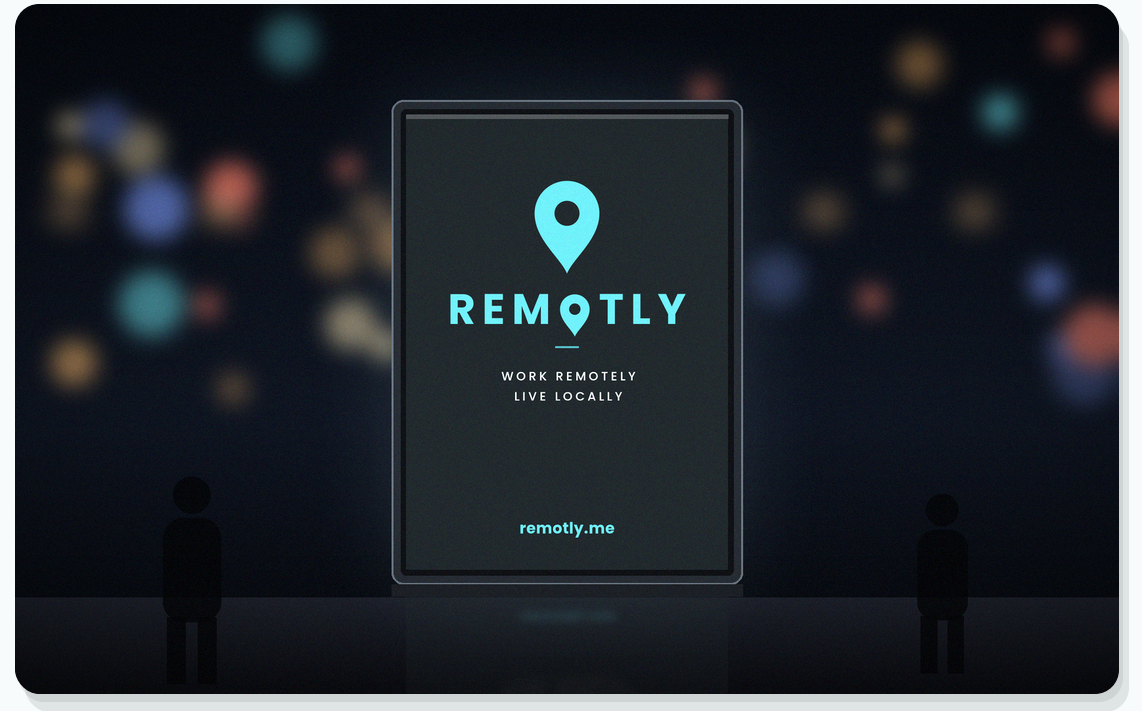

Pin, tagline or
wordmark —
never all three
at equal size.

08 OUTDOOR

Large format

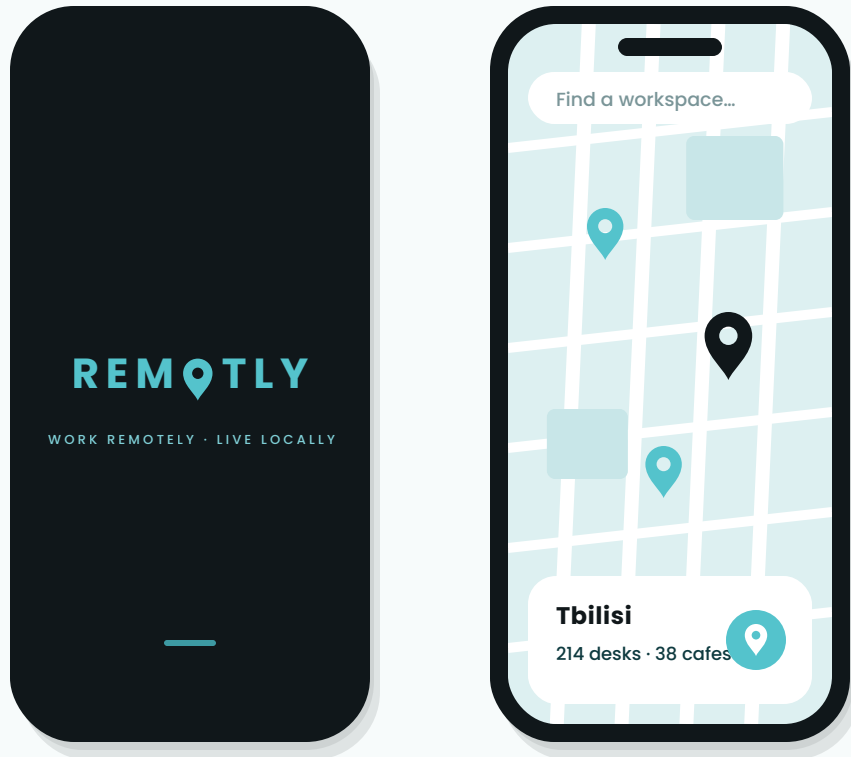

HIGHWAY BILLBOARD · DUSK

BACKLIT CITYLIGHT · NIGHT

Teal carries daylight; Ink owns the night. Billboards lead with the wordmark, street furniture with the pin.

Mobile

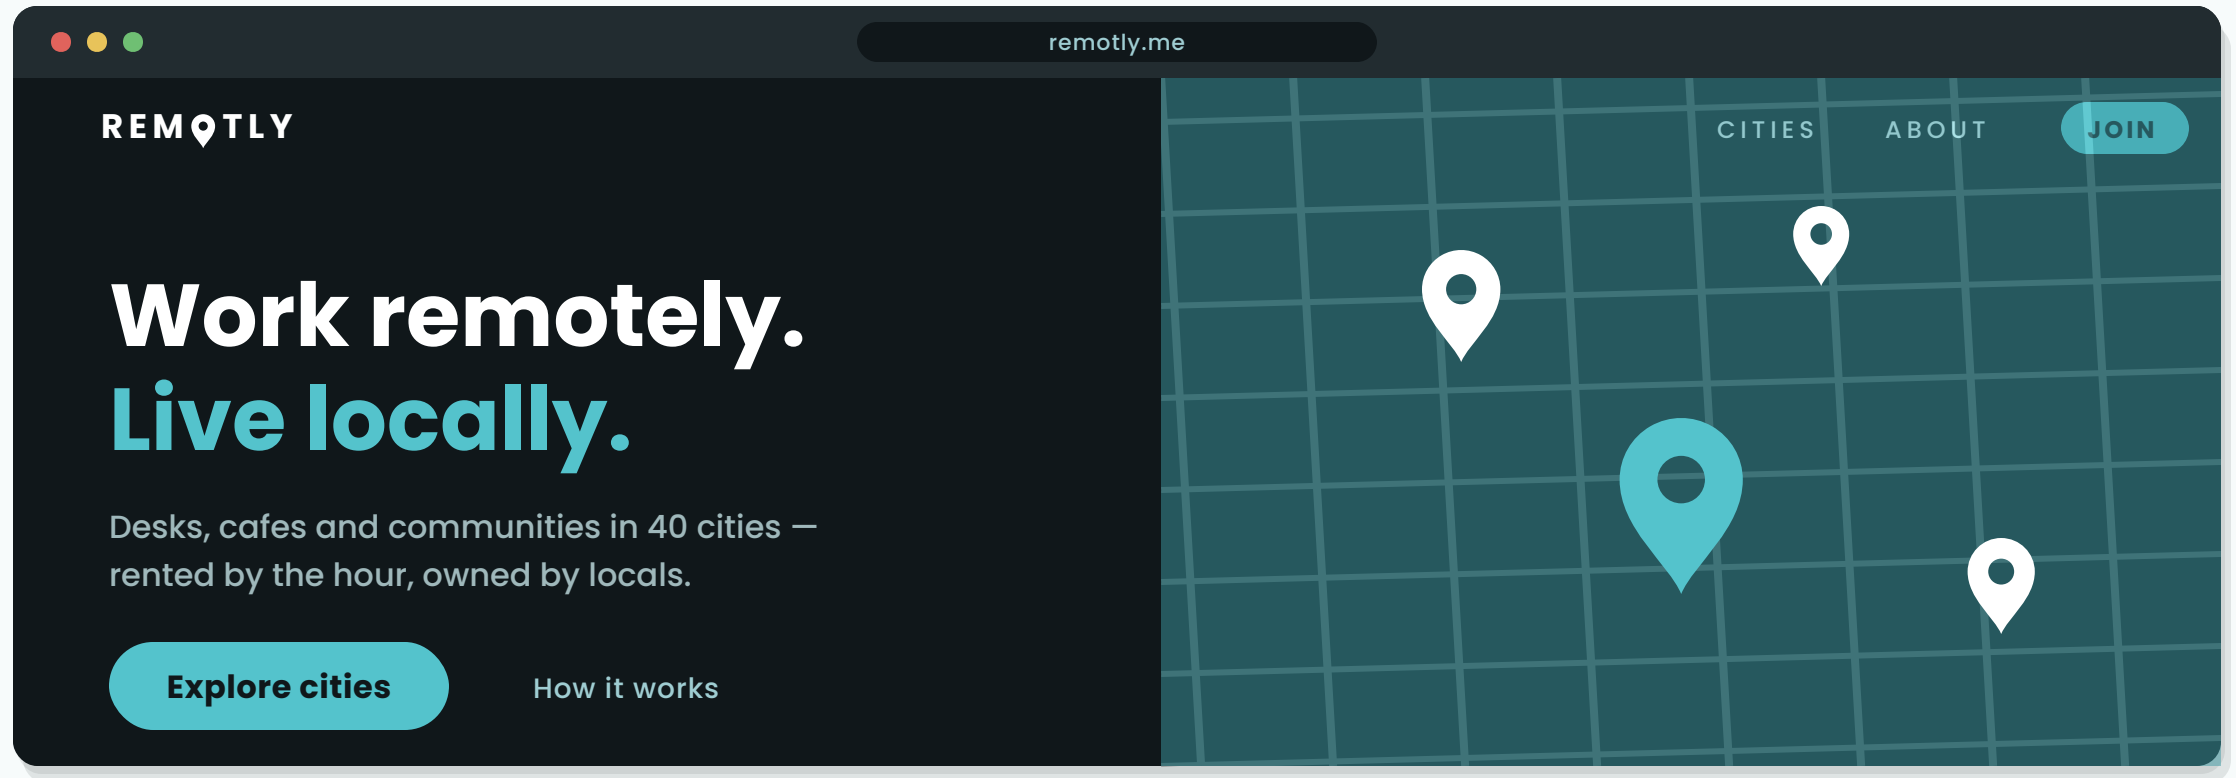

Splash leads with the lockup on Ink — the only screen where the brand speaks alone.

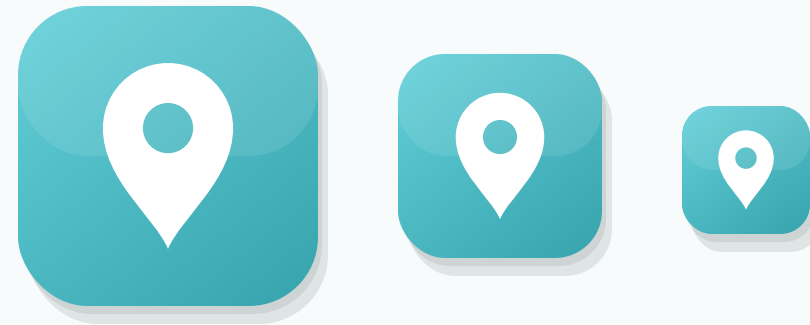

In product, the pin works: markers, buttons, empty states. The full wordmark never floats over content.

UI ACCENT · REMOTLY TEAL ON MIST SURFACES
MAP MARKERS · TEAL = AVAILABLE · INK = SELECTED

remotly.me

The pin, rendered

APP ICON · GRADIENT TEAL, WHITE PIN, 23% RADIUS

The rendered pin replaces flat artwork only in 3D or motion contexts. Print and UI always use the flat glyph.
